

## CUT-IT

CIT

### GENERAL INFORMATION

**CUT-IT** is an active paste for use during the machining of metals in order to reduce friction and heat generation, and thus to prolong the life of the machining tools. **CUT-IT** may be used with all metals, including steel, aluminium, copper, brass and stainless steel. **CUT-IT** paste may be used during drilling, cutting, boring, external and internal thread tapping.

### TECHNICAL DATA

Form: paste.

Base: mineral oils and additives.

Colour: light, light-beige.

Storage: protect against freezing temperatures.

Safety measures: provided in the safety data sheet.

This product is not classified as dangerous.

### USAGE

**CUT-IT** paste is suitable for every type of metal machining, e.g. milling, tapping, drilling, cutting, etc. It may be used both in the machining of very hard stainless steel, as well as softer materials, e.g. aluminium, brass or copper.

Application method:

Dip the drill bit or thread in **CUT-IT** paste or apply directly onto the machined surface. In the case of a prolonged machining repeat paste application at regular intervals.

### CLASSIFICATION

Article code	Name	Packaging	Type
CIT	CUT-IT	container 500 ml	lubricants
