TTP Polska Sp. z o.o. does not guarantee the accuracy of all information and does not accept responsibility for how the products are used. The liabilities of TTP Polska Sp. z o.o. are limited solely to the standard terms and conditions of sale of the product and in no case whatsoever does TTP Polska Sp. z o.o. bear any responsibility for accidental or indirect damages resulting in the sale, use and improper use of the product.

GENERAL INFORMATION

POWER K-SPRAY is an effective, economic and fast acting degreasing agent in aerosol. Removes stubborn soiling — e.g. oils, lubricants, adhesives, resins, bitumen compounds, etc. — from metal, glass, ceramic, fabric and most plastic surfaces. During cleaning and surface washing **POWER K-SPRAY** leaves no stains nor smudges. It evaporates fully. **POWER K-SPRAY** also removes the majority of oxides from metal surfaces.

TECHNICAL DATA

Form (at 20°C): colourless liquid.
Flash point °C: < -18
Specific gravity: (at 20°C), g/cm³: 0.70
Water solubility: moderately soluble.
Boiling point °C: 58–170
Safety measures: provided in the safety data sheet.

USAGE

Thanks to its properties, **POWER K-SPRAY** is an ideal cleaning agent that may be used in all industries, workshops and on assembly lines. **POWER K-SPRAY** is especially effective in the automotive industry (cleaning of linings and clutch discs, cleaning of disks and brake drums, cleaning of engine components). **POWER K-SPRAY** also proves effective as a degreaser used before adhesive bonding, painting, lubricating (removes old lubricants perfectly). Additionally, it is effective in degreasing locations with difficult or limited access.

Application method:

Shake before use and spray **POWER K-SPRAY** onto the treated surface. Wipe with a clean cloth. In the case of stubborn soiling, leave **POWER K-SPRAY** on the surface, and then repeat the cleaning procedure.
