CAUTION

All information, including illustrations, are reliable. However, the users should evaluate the usability of each product for a given application. TTP Polska Sp. z o.o. does not guarantee the accuracy of all information and does not accept responsibility for how the products are used. The liabilities of TTP Polska Sp. z o.o. are limited solely to the standard terms and conditions of sale of the product and in no case whatsoever does TTP Polska Sp. z o.o. bear any responsibility for accidental or indirect damages resulting in the sale, use and improper use of the product.

GENERAL INFORMATION

PRO VULCANOVA TAPE is a self-vulcanizing protective tape based on polyisobutylene, which perfectly adapts to any shape. It is available in black. **PRO VULCANOVA TAPE** features good and stable electric and mechanical properties. Resistant to weather conditions and water. Retains its properties when immersed in water. Resistant to ozone. Surfaces, to which the tape is applied, should be dry, free of dust, grease, oil and other soiling.

TECHNICAL DATA

Material: polyisobutylene reinforced with polyethylene
Thickness: 0.5 mm
Tearing strength: 2.0 MN/m²
Stretchability: 600%
Thermal resistance: -40°C – +90°C.
Absorbability: 0.4%
Susceptibility to electrolytic corrosion: none (full resistance)
Combustibility: inflammable
Ozone resistance: superb
Chemically resistant to: water vapour, aggressive chemical fumes, salt solutions, diluted acids
No chemical resistance to: oil, petrol, lubricants, organic solvents
Water resistance: good
Resistance to weather conditions: good
Dielectric strength ASTM D 149, DIN 53481: >40 kV/mm

USAGE

Insulation and protection of electric connections and cables. Repair and protection of cable connections. Protects pipes against corrosion. Insulation of electrical wires. Improves an installation's resistance to water and humidity. For connection and repair of cables covering a wide range of power output.

CLASSIFICATION
