

SILVER MASTER TAPE

SMT

GENERAL INFORMATION

SILVER MASTER TAPE is a high-efficiency repair tape, fulfilling the strictest requirements in the scope of repairs and maintenance. The tape's core is made of a polyamide (nylon) mesh with a high density plait, providing perfect tensile and tearing strength. The top and bottom layer of the tape are made of high quality polyethylene, protecting against humidity and solvents, which provides long-lasting adhesive properties.

TECHNICAL DATA

Adhesive — mixture of natural rubber and synthetic resin.
 Base material — woven polyester with polyester coating
 Colour — silver.
 Adhesion to steel: 9.8 N/cm²
 Tensile strength — 161.8 N/25 mm
 Thickness — 0.3 mm.
 Thermal resistance — -15°C – +50°C
 Max. elongation – 11.5%
 UV resistance — limited.

USAGE

SILVER MASTER TAPE is designed for a wide selection of applications in the automotive industry, aviation, military and industry. It is used for maintenance, repairs and overhauls. An essential piece of equipment for site managers; applications include: maritime devices, light commercial vehicles, recreational vehicles, buses, lorries, the production of trailers, machining of metals and wood, furniture industry, electronic industry. In households and farmsteads — for binding, reinforcing, grouping, packing, storing and protecting.

CLASSIFICATION

Article code	Name	Packaging	Type
SMT	SILVER MASTER TAPE	50 m/50 mm roll	tapes
