

POWER WIDE-JET DEGREASER

WDG

GENERAL INFORMATION

POWER WIDE-JET DEGREASER is an efficient and very fast acting degreasing agent in aerosol form. Thanks to innovative solutions (high working pressure and a special dispersion outlet nozzle) **POWER WIDE-JET DEGREASER** emits a dispersed stream onto degreased surfaces, which allows the degreaser to be used economically on large, greased surfaces. Adding to this a unique chemical content, the **POWER WIDE-JET DEGREASER** offers a wide variety of possible applications in removing stubborn soiling — e.g. oils, lubricants, adhesives, resins, bitumens, etc. — from metal, glass, ceramics, fabrics and most plastic surfaces, even from a large distance; while cleaning and surface washing **POWER WIDE-JET DEGREASER** leaves no stains or smudges. It evaporates fully and quickly. **POWER WIDE-JET DEGREASER** also removes the majority of oxides from metal surfaces.

TECHNICAL DATA

Form (at 20°C): colourless liquid.
Flash point °C: < -18
Specific gravity: (at 20°C), g/cm³: 0.70
Water solubility: moderately soluble.
Boiling point °C: 58–170
Safety measures: provided in the safety data sheet.

USAGE

POWER WIDE-JET DEGREASER is an ideal cleaning agent that may be used in all industries, especially in workshops and on assembly lines. **POWER WIDE-JET DEGREASER** is especially efficient in cleaning different items — from large-scale to small (heavy stream dispersion makes it possible to penetrate even the smallest cracks). **POWER JET DEGREASER** is also recommended for surface preparation prior to adhesive bonding, sealing and painting, and in every location, where a 100% degreased, clean and dry surface is a must.

CLASSIFICATION

Article code	Name	Packaging	Type
WDG	POWER WIDE-JET DEGREASER	aerosol 500ml	removers, degreasers
